PRIOR UNITY

THE BASIS FOR A NEW HUMAN CIVILISATION

—by THE WORLD-FRIEND Adi Da

This book's message is that the impulse to peaceful, cooperative coexistence is humanity's "true north". The impulse comes from our root-intelligence as one single species, and, at the same time, reflects the inherent unity of all life.

"If humankind is going to make it to the other end of this century, it will only be by recourse to great Wisdom-Action, as presented in Prior Unity. And only together, as Earth-World all together—as one, not two. Profounder Wisdom is not available anywhere—nor more radical action. Drink from this source—deeply, from its infinite depth."

— **Rolf C. Carriere**, Former U.N. official
